

# ITALY: A COUNTRY WORTH VISITING

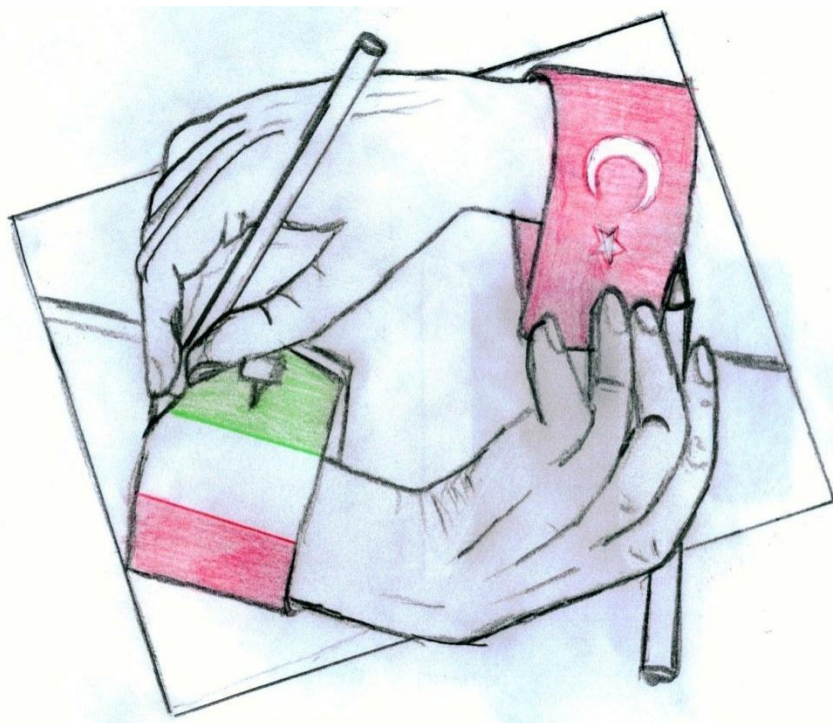

Group Leader: Büşra Demirer

Group Members: Hatice Çulha, Tevriz  
Baskış

School Year: 2011-2012

Coordinator: Prof. Barış Toklucu

Before joining this project I didn't know much about Italy. So there were prejudices about Italy. But after joining this project I researched about Italy and learned a lot of from your powerpoints. And I loved it.

Rome is capital of Italy. Italian is spoken in Italy. Italy's currency is Euro. As far as I see from you, Italian people are very nice.

I am very curious about Italy. I want to go to Italy and visit you one day. I hope this can be possible with this project.

Büşra D.

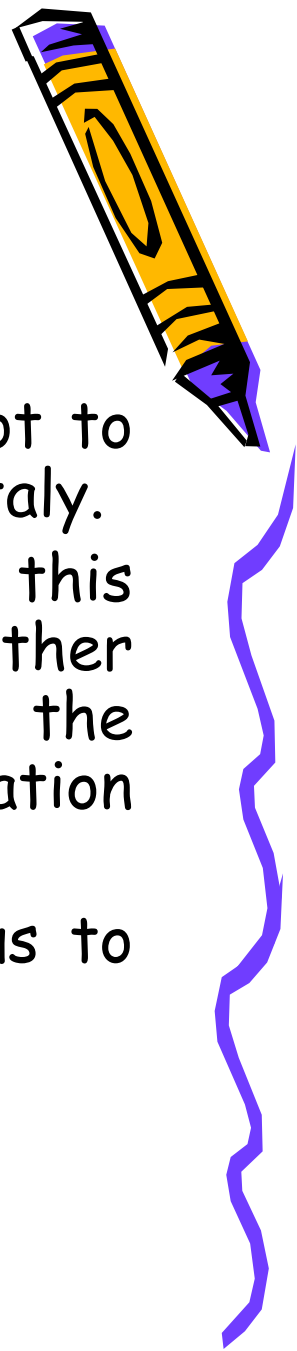

This project is very nice for Turkey and Italy. I know Rome is the capital of Italy. Frankly, I didn't know much about Italy before this project but I learned a lot from you. I think that Italy is actually a great place.

This project is very important for me. Visiting other countries, learning their cultures and meeting new people will be a nice experience for me. The importance and purpose of this project is so great.

Tevriz B.

I'm sure, this project will contribute a lot to develop the friendship between Turkey and Italy.

I hope to meet Italian students with this project. Coming together with people from other countries makes me very happy. One of the contribution of this project is sharing information about both countries' cultures.

I think this project is very useful for us to meet together and learn different cultures.

Hatice Ç.
